Claims 10, 15, 20, 32, 36, 37-40, 50, 58, 72 and 76-79 have been amended to define still more clearly what Applicant regards as his invention. Claims 12-14, 28, 29, 31, 33-35, 53-54, 68, 69, 71, 73-75, 95 and 96 have been canceled without prejudice or disclaimer of subject matter, and will not be mentioned further. Favorable reconsideration is requested.

Among other important features of the aspects of the present invention recited in Claims 10 and 20, is enabling one to access all versions of an object indicated by electronic mail. By virtue of this feature, even if the object is updated after the electronic mail has been transferred or received, a user who has received the electronic mail can still access the latest version of the object when access to all versions is permitted by access information.

Furthermore, according to Claim 15 and 36, a user can select a desired version of the object by selecting the desired object from an at-a-glance display.

These features are believed not to be taught or suggested by anything in the art of record.

Early and favorable continued examination of the present application is respectfully requested.
